

CASE STUDY:

# UK Nuclear Fuel: A Valuable Contribution

## KEY INFORMATION

**SITE:**

Urenco UK,  
Capenhurst, UK

**CAPACITY:**

4,600tSW per year

**EMPLOYEES:**

350 people

**FIRST OPERATIONS:**

1971

## Project Overview

Our UK facility in Cheshire is at the heart of the Northern Powerhouse and in close proximity to new build projects and the Westinghouse Springfields site. Our Cheshire facility employs a highly-skilled workforce of 350 people, mainly from the North West of England and North Wales, ensuring specialist skills and expertise in the civil nuclear industry remain in the region.

## Details on solution/approach

Urenco has a proud history of being a leader in the civil nuclear industry for 50 years, with long-term customer relationships at the core of our sustainable business.

Our UK facility is well positioned to support nuclear new build projects in UK, with a competitive and reliable supply of enrichment services and nuclear fuel cycle products for the entire lifetime of new reactors.

In addition, we have enrichment facilities in the Netherlands, Germany and the USA. Our geographic diversity enables us to respond flexibly to demand while at all times ensuring security of supply.

“Urenco is a reliable supplier acting with integrity and honesty in all their business operations.”
